NEW YORK HERALD, THURSDAY, JANUARY O 1808. . .

## FINANCIAL AND COMMERCIAL.

WEDNESDAY, Jan. 8-6 P. M. The gold market reacted to-day, according to genera expectation, from the too rapid advance of yesterday. he extreme range was from 137% to 136%, with the osing transactions firm to the adjournment of the pard at 136% against 137% at the epening. Following the adjournment there was a further decline to 13614 and the closing price was 136%. The borrowing de-imand was moderately active, but the supply was in excess of it, and loans were made without interest and at rates varying from three to six per cent. The volume of business was newhat smaller than yesterday and the speculative footing was less bullian, sales to realize the recent adrance having been general, and it is not certain that the ction has yet fully spent its force, the rise above 136 aving been too sudden to last and due to the same speculative causes which led to the provious decline to 233%. The steamer Scotin took out \$1,255,000 in specie and bullion, and the Sidon \$180,000. The coin in the Treasury on the 1st inst. amounted to \$108,430,253, of which \$20,104,550 was represented by gold Certificates in the hands of the public, leaving 88,325,673 the property of the government. From this must be deducted the amount of the January inascertain the actual reserve, which was about fiftyseven millions and a haif.

The stock market, which seemed to hesitate in its bourse during the morning, became very strong and excited in the afternoon, with Erie leading the upward movement, and the latter closed active and in the ascendant at 74% a 74%, the r being that the contemp lated running arrangements with a view to the consolidation or carnings be-ween the Erie, the New York Contral and the Penn-Ivania Central will shortly be completed, after which stock of the Eric Company will range permanently avention at Cieveland met to-day, and its expected sults in barmontzing the interests of all the Western ilways had some effect in stimulating speculation for Next to Erie, New York Central atnoted attention, and there was also a very partied demand for Rock Island and some of the other Western shares. The litigation respecting the \$4,900,000 of new stock recently issued ock Island Company led to the arrest of the Prosident and Secretary of the latter soon after one she transfer books before the referee appointed by the preme Court under the proceedings commenced by ferred. The defendants subsequently appeared before we understand that they are to appear be-sore the referee at ten o'clock to-morrow The transfer and other stock books of the mpany have been sent to Chicago, and consequently syond the jurisdiction of our State courts, since the injunction on the complaint of Fisk & Belden was issued and this further complicates the case. This sed of five directors, only one of whom. Mr. David Crawford, Jr., protested against it. Thus far the where the proceeds of the sale of the new stock are to found, but it is understood that they ave loaned it out on call, and in one instance, where a prominent house dealing in government securities and borrowed two milhons, an injunction was granted estraining them from paying off the loan to the company. An order for the inspection of the company's bank account was likewise issued, and an effort is being made to have all the funds belonging to company transferred to a trust company under an order of the court. Both the injunction smuddle and the stockjobbing muddle are a source of confusion to the street and all concerned, and further developments are awaited with interest. Money was in superabundant supply on stock collaterals at six per cent, the transactions at seven being exceptional. In the discount line there was no change Government securities were in active fuvestmen

mand at the counters of the leading dealers, and during the early part of the day there was also a brisk eculative inquiry for them, and prices were in the condant. With the decline in gold late in the after-on, however, five-twenties of 1862 yielded slightly. and there was diminished animation in the dealings. The increasing abundance of idle capital and the dis-Dursements of the semi-annual interest and dividends are favorable to still greater activity and considerably igher prices, governments having been unduly de essed during the last few months. At the close the arket was quiet and steady at the subjoined quota-18:-Registered, 1881, 10814 a 10814; coupon, 1881, 10814 a 10834 : 5-20's, registered, 1862, 10544 a 10544 ; 5-20's, coupon, 1862, 108 % a 108 %; do., 1864, 105 % a 206%; do., 1865, 106% a 106%; do., 1865, January and July, 104% a 104%; do., 1867, 104% a 105; 10 40's, stored, 102 a 102 1; 10 40's, co June 7.30's, 104% a 104%; July 7.30's, 104% a 104% May compounds, 1865, 117% a 117%; August do , 116% 116%; September do., 116 a 1164; October do., 115% a 116.
